CODING UNPLANNED PERSONAL

The Unplanned Personal pay rule has specific rules as it relates to when an employee can be paid using their extended illness bank. The rule is tied to an employee's Seniority date and years of service for the first 3 days only.

Years of Service	CODING
< three years	Code 24 hours of UnplanPL then EIIIUnpl
3-10 years	Code 16 hours of UnplanPL, then EIIIUnpl
> ten years	Code 8 hours of UnplanPL, then EIIIUnpl

Note: Refer to Employee Accrual tab from the employee's timecard for specific employee instructions. For Example, "KR400_08" = Use 8 hours of PLU first, and then code extended illness EIU thereafter.

Unplanned personal is used first, then unplanned extended illness according to the seniority date for the first 3 days only, and only if extended illness time is available.

If your employee does not have an extended illness bank, you must continue to pay UnplanPL. If there is no PL bank available, you must code UPlnPINP

Any employee calling out sick for 4 days or more may be re-directed to call Matrix at 1-877 202-0055 if eligible for FMLA. Do not remove the coding for Absence Days 1, 2 and 3. Once the employee calls Matrix, the codes will be automatically populated for Day 4 forward

If your employee is absent for less than a full day, you must code Early Out PL or Late In PL. Unplanned is never to be used for partial day absences.

****SPECIAL RULES FOR MEMBERS OF COMPANIES 100, 110, 200, 210, 220, 300, 310, 320 (non-union)****

Extended illness will be coded from the first day of the unplanned absence pattern if the employee is calling out sick. Employees who are part of this employment group, do not have to use any PL time unless they do not have any Extended Illness time or run out of Extended Illness during their absence.
